THE MAYA ROMANOFF® MIRROR COLLECTION

GENESIS

Featuring True Metals Basketweave™

Crafted by **APF MUNN**
APF MUNN MASTER FRAMEMAKERS

A unique combination of sleek mirror and aged copper paneling, this mirror is truly one-of-a-kind.

Clear mirror with a tiny 1/4" bevel sits against a wide panel of interlocking gilded copper strips; whose soft patina add a rustic spin to an otherwise ultra-modern design.

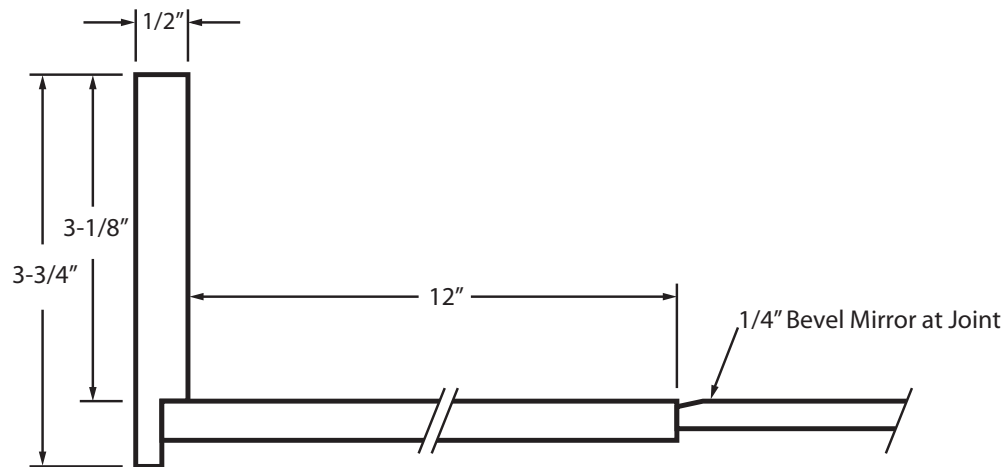

The small shelf which stands out from the mirror face gives the impression of a window sill and the view is to a world outside. Patterned copper set into a deep rim of narrow gilded frame, the contained mirror with gilded shelf all combine to create an opening which leads the eye toward a distant horizon.

Detail

The Genesis mirror is available in a variety of finishes.

Product Specifications

Product Name: Genesis

Standard Dimensions (OD): 30 3/4" x 48 1/2" x 3 3/4"

Custom Dimensions: Any Size, Height is in Increments of 6"
