THE MAYA ROMANOFF® MIRROR COLLECTION

SAVANNA

Featuring Flexi Mother of Pearl Aphrodite™

Crafted by  APF MUNN MASTER FRAMEMAKERS

A broad expanse of clear mirror broken into a grid, sits within a surrounding panel of mother-of-pearl. Seen here, the flat profile frame, which holds the pearl panel, is gilded in silver metal leaf and the clean modern lines are echoed by those of the mirror grid. Balance, space, soft finishes and uncluttered lines give a sense of open landscape seen from a distance.

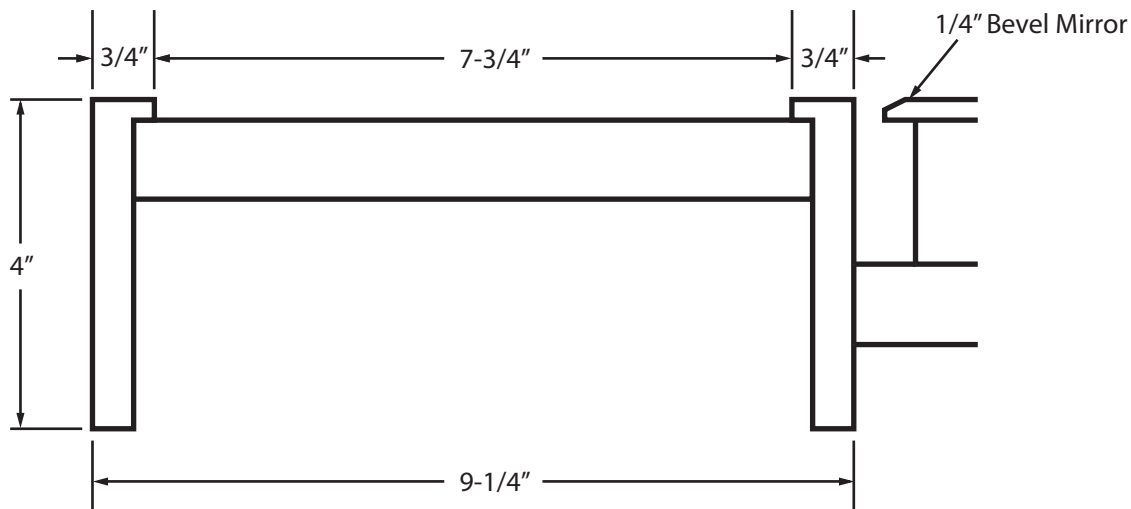

The panel is created of natural capiz shell and the pattern provides the perfect counterpoint to the simplicity of the frame.

The Savanna mirror is available in a variety of panel choices and finishes.
